

Lava mãos de pé  
Foot operated washer  
Lave mains au pied

#### Características

- Fiáveis e robustos.
- Construção em aço inoxidável.
- Cuba estampada numa peça só.
- Comando de pé.
- Alçado traseiro de 85 mm de altura.
- Torneira simples ou misturadora.

#### Features

- Strong and reliable.
- Built in stainless steel.
- Single pressed bowl.
- Foot operated model.
- 85 Mm high splash-back.
- Cold or mixed water tap.

#### Caractéristiques

- Fiables et robustes
- Fabrication en acier inoxydable.
- Cuve pressée dans une pièce.
- Fonctionnement au pied.
- Dossieret de hauteur 85 mm.
- Robinet mélangeur ou eau simple.

# Flytrap Commercial™

## Commercial glueboard insect control

**Flytrap Commercial™** provides a hygienic solution to insect control for sensitive areas such as food preparation areas. Incorporating high specification components and build quality, **Flytrap Commercial™** is available as a 30, 40 or 80W unit and can be ceiling suspended, slimline wall or discreet wall mounted. **Flytrap Commercial™** is also available as an IP65 version, suitable for use in harsh environments which may require hosing down. All **Flytrap Commercial™** units are designed for use with genuine **GLUPAC™** pheromone impregnated glueboards, which incorporate UV stable dry glue for longer life and an increased catch.

## Features

### Flexible and easy installation

Choice of ceiling suspended, slimline wall or discreet wall mounting

### IP65 option for harsh environments

All stainless steel construction certified to IP65

### Shatterproof tubes as standard \*

Teflon® FEP coated shatterproof tubes for hazardous and sensitive areas

### High efficacy UV tubes

Proven to be more effective and longer lasting than standard UV tubes

### Innovative glueboard technology

Designed for use with **GLUPAC™** pheromone impregnated glueboards with UV stabiliser

### Robust construction

All metal construction

### Independent certification

Independently tested and certified to RoHS and relevant European standards

### Complete peace of mind

Three year guarantee (excluding tubes)

\* IP65 models only

## Specification

## Front loaders

LF322M

LF700M

Machine's compact dimensions allow the unit to be fitted under a traditional counter, the front surface is perfectly flat thanks to the door built-in handle. The electro-mechanical controls are placed on the top, to protect against water splashes. LF322M and LF700M - being multipower units - adapt to the different power connections and water temperatures available worldwide.

The two preset programmes are suited to any washing requirements, minimising the consumption of water, energy and detergent.

The powerful jets of the upper and lower wash arms cut across each other to get rid of the stubbornest dirt for perfect hygiene.

The washing compartment with its moulded base conveys dirt into the flat filter, which also incorporates the overflow pipe and the micro-filter protecting the pump.

A complete range of racks is available for dishware of all kinds: pla-

tes, glasses, cutlery, trays.

For more ergonomic installation, model LF700M feature a base stand and high feet.

Letter A identifies models with a built-in water softener.

**To get rid of the problems caused by variations in water pressure, models without a built-in water softener may be fitted with the RCD system. Thanks to an atmospheric booster and a rinse pressure pump the machine results to be independent of variations in the water pressure.**

## Highlights

- ✕ Electromechanical controls on the top
- ✕ AISI 304 stainless steel body with fine matt finish
- ✕ Double skin door
- ✕ Adjustable feet
- ✕ Door microswitch
- ✕ Automatic filling
- ✕ Constant control of water level
- ✕ Drawn tank base housing filter
- ✕ Upper and lower rotating wash and rinse arms
- ✕ Automatic temperature control
- ✕ Heaters interlocked
- ✕ Anti-vacuum valve
- ✕ Thermostop
- ✕ Anti noise filter
- ✕ Built-in rinse aid dispenser
- ✕ Prepared for connection with detergent dispenser

## G 411 RU MIX

Forno convector eléctrico multifunções para gastronomia com humedificação e inversão de marcha

Ref. 1100.492.007

Forno de convecção eléctrico com controlo manual de humedificação e grill (700 W).  
Interior e exterior em aço inoxidável.  
2 Ventiladores com inversão de marcha.  
Isolamento térmico em fibra vitrocerâmica de 50 mm e porta com vidro duplo de 4 mm.  
Câmara com cantos arredondados e fundo em forma diamantada que permite direccionar a condensação para o esgoto.  
Vedante da porta removível para fácil e total limpeza.  
Pega ergonómica e atérmica.  
Porta com micro-switch que desliga automaticamente os ventiladores na sua abertura.  
Equipado com 1 grelha GN1/1.  
Opcional: kit pastelaria 600x400.

### Características Técnicas

Dimensões (LxPxH)	825x685x560 mm
Potência	6.9 kW
Alimentação	400V~3N_50/60Hz
Capacidade	4x GN1/1
Distância entre grelhas	75 mm
Temperatura	10 - 280 °C
Timer	1 - 120 min.

Macchina per cuocere in breve tempo, senza fiamma, con sistema ad induzione di calore dalla piastra al contenitore. Rimosso il contenitore, che deve essere assolutamente di tipo metallico, la macchina si arresta. Struttura in acciaio inox - piastra in vetroceramica - funzionamento in modalità livelli di potenza o in modalità temperatura (°C) - parte di piano induttivo Ø 140÷220mm.

Quick cooking appliance, flameless, with a heat induction system from the plate to the container. The machine stops when the container, metallic only, is removed. Stainless steel structure - pyroceram plate - power level or temperature (°C) operating modes - Ø 140÷220mm inductive plate part.

Machine pour cuire en peu de temps, sans flamme, par système à induction de chaleur de la plaque au récipient. Après retrait du récipient, qui doit absolument être en métal, la machine s'arrête. Structure en acier inox - plaque en vitrocéramique - fonctionnement en mode niveaux de puissance ou en mode température (°C) - une partie du plan est inductive Ø 140÷220mm.

Schnellgargerät ohne Flamme, mit System zur Induktion der Hitze von der Platte auf den Behälter. Bei Abnahme des Behälters, der unbedingt aus Metall sein muss, stoppt die Maschine. Rahmenstruktur aus Inox-Stahl - Kochplatte aus Glaskeramik - Betrieb im Modus Leistungsstufen oder Temperatur (°C) - Teil der Platte induktiv Ø 140÷220 mm.

Máquina para cocinar en un tiempo breve, sin llama, con sistema por inducción del calor de la placa al contenedor. Cuando se quita el contenedor, que debe ser exclusivamente metálico, la máquina se detiene. Estructura de acero inoxidable - placa de vitrocerámica - funcionamiento en la modalidad con niveles de potencia o en la modalidad temperatura (°C) - parte de la placa inductiva Ø 140÷220mm.

Прибор, предназначенный для быстрого приготовления пищи, без пламени, посредством передачи тепла от плиты к емкости. При снятии с плиты емкости, которая обязательно должна быть выполнена из металла, прибор отключается. Корпус из нержавеющей стали, плита из стеклокерамики, работа в режиме уровней мощности или режиме температуры (°C), индукционная часть поверхности Ø 140÷220 мм.

## FRIGORIFICO SAMSUNG - RT32FARADWW

### Resumo

CLASSE ENERGÉTICA A+ - NO FROST - DIMENSÕES (AXLXP): 1710X600X719MM - CAPACIDADE LÍQUIDO TOTAL: 322Lts - COR: BRANCO

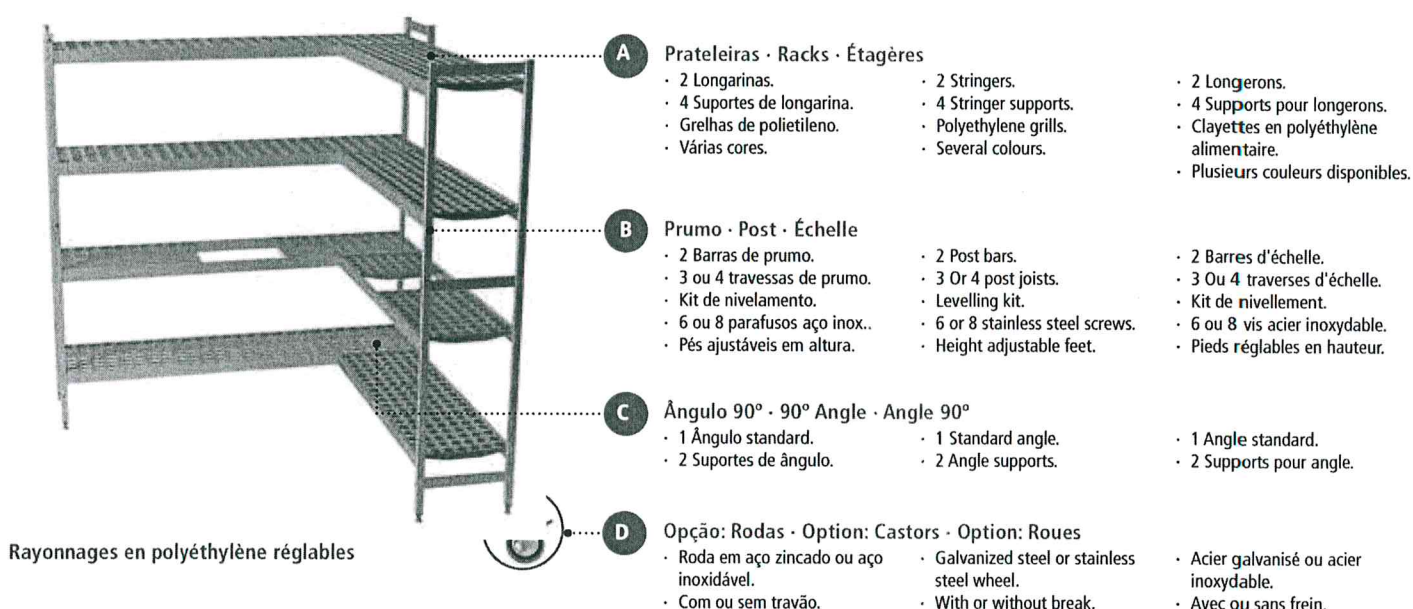

### Características

Capacidade Líquida total: 322L  
Capacidade Líquida do Congelador: 72L  
Capacidade Líquida do Frigorífico: 250L  
Compressor Digital Inverter (10anos de garantia)  
Classe Eficiência Energética A+  
Nível de ruído: 43 dB  
Gaveta Full Open Box  
Prateleira Easy Slide  
Cor: Branco  
Dimensões (AXLXP): 1710X600X719mm

## Estanteria modular gamas 370 /470

## Modular shelving range 370/470 · Rayonnage modulaire 370/470

- 2 Stringers.
- 4 Stringer supports.
- Polyethylene grills.
- Several colours.
- 2 Longérons.
- 4 Supports pour longerons.
- Clayettes en polyéthylène alimentaire.
- Plusieurs couleurs disponibles.

- 2 Post bars.
- 3 Or 4 post joists.
- Levelling kit.
- 6 or 8 stainless steel screws.
- Height adjustable feet.
- 2 Barres d'échelle.
- 3 Ou 4 traverses d'échelle.
- Kit de nivellement.
- 6 ou 8 vis acier inoxydable.
- Pieds réglables en hauteur.

- 1 Standard angle.
- 2 Angle supports.
- 1 Angle standard.
- 2 Supports pour angle.

- Galvanized steel or stainless steel wheel.
- With or without break.
- Acier galvanisé ou acier inoxydable.
- Avec ou sans frein.

### Características

- Prumos anti corrosão em alumínio anodizado 15 microns.
- Grelhas laváveis com buracos ovalados (consultar para lisas) em polietileno de alta densidade.
- Temperatura entre -30°C e +75°C.
- Capacidade de suporte 120 kg por prateleira.
- Possibilidade de níveis entre 2 e 10.
- Cor standard cinzento (para outras cores consultar fábrica).

### Features

- Anti-corrosion posts in anodized aluminium with 15 microns.
- Washable high density polyethylene grills with oval holes (without holes under consultation).
- Holds temperatures between -30°C and +75°C.
- Load capacity of 120 kg per rack.
- Possibility of 2 to 10 tiers.
- Standard grey (other colours available).

### Caractéristiques

- Échelles anti-corrosion en aluminium anodisé de 15 microns.
- Clayettes lavables en polyéthylène haute densité avec trous ovales (sans trous sur demande).
- Températures entre -30°C et +75°C.
- Capacité de charge 120 kg/niveau.
- Possibilité de niveaux entre 2 et 10.
- Standard couleur gris (pour autres couleurs consulter l'usine).
